EXPERIENCE

jacobsHack! Main Organizer

hack.EV

March 2019 – Ongoing Bremen, DE

- Organized a hackathon for 200 people from all over the world and led a team of 50 people to host the best edition of the hackathon so far
- Raised funds from multiple sponsors (SkyScanner, GitHub, RedBull, etc...) to ensure smoothness of the event.
- Developed multiple marketing strategies to reach more participants and was able to collect a very competitive application pool.
- Improvements and enhancements in organizational structure. Built platforms to preform secure check ins. Developed the website jacobshack.com
- Currently developing a chat bot for next years edition to automate messaging and have a faster more efficient communication system with our participants.

Student Assisstant

Jacobs University Bremen

Aug 2019 – Ongoing Bremen, DE

- Built a room allocation algorithm for the residential college to ensure most diverse and mixed combination of students in dorms. The algorithm pairs the students based on nationality, mother tongue, noise level sensitivity and more preferences.
- Working on a live updater for college infrastructures to allow easier and faster access to information about bookings of common areas in college.

Video Producer

Jacobs University Bremen

Jan 2019 – June 2019 Bremen, DE

- Produced all videos for the university's official social media accounts.
- Raised reach by 120% and viewer retention by 230% and produced 22 videos in the course of 6 months

CODING SKILLS

C++ C CSS HTML JavaScript Python Haskell FireBase
React.JS

MOST PROUD OF

Courage I had

to organize the annual orientation week (biggest event hosted by the university) in my university as a second year which was never done before

Persistence

I've worked on multiple academic/non-academic project in less than 2 years and gained a lot of experience and social skills while still focusing on my computer science career.
